# SUMMARY OF SIGNIFICANT ACCOUNTING 3. 主要會計政策概要 POLICIES

#### **Basis of preparation of consolidated financial statements**

These consolidated financial statements have been prepared in accordance with HKFRSs (which include all Hong Kong Financial Reporting Standards, Hong Kong Accounting Standards ("HKASs") and Interpretations) issued by the HKICPA and accounting principles generally accepted in Hong Kong. In addition, these consolidated financial statements include applicable disclosures required by the Rules Governing the Listing of Securities on the Stock Exchange ("Listing Rules") and the disclosure requirements of the Hong Kong Companies Ordinance (Cap. 622).

#### **Going concern basis**

During the year ended 31 December 2022, the Group incurred total comprehensive expenses attributable to owners of the Company of approximately HK\$403,753,000 (2021: HK\$14,375,706,000) and net operating cash outflows of approximately HK\$140,088,000.

The Directors have reviewed the Group's cash flow projections prepared by the management. The cash flow projections cover a period of not less than twelve months from 31 December 2022. The management has made key assumptions in the preparation of the projections with regard to the anticipated cash flows from the Group's operations, capital expenditures and the continuous availability of facilities. The Group's ability to achieve the projected cash flows depends on the continuous availability of facilities.

In view of the above, the Directors believe that the Group will have sufficient financial resources to meet its financial obligations as and when they fall due in the coming twelve months from 31 December 2022. Accordingly, the Directors have prepared these consolidated financial statements on a going concern basis.

These consolidated financial statements have been prepared under the historical cost basis, except for certain properties and financial instruments, which are measured at their fair values as explained in the accounting policies set out below.

#### 綜合財務報表編製基準

本綜合財務報表已根據香港會計師公會頒布之 香港財務報告準則(包括所有香港財務報告準 則、香港會計準則(「香港會計準則」)及詮譯)及 香港公認會計原則而編製。此外,本綜合財務 報表包括聯交所證券上市規則(「上市規則」)所 要求之適用披露及香港公司條例(第622章)之 披露要求。

#### 持續經營基準

於截至二零二二年十二月三十一日止年 度,本集團產生本公司擁有人應佔之全面 支出總額約403,753,000港元(二零二一年: 14,375,706,000港元)及經營現金流出淨額約 140,088,000港元。

董事已審閱管理層編製之本集團現金流量預 測。該等現金流量預測涵蓋自二零二二年十二 月三十一日起不少於十二個月之期間。於編製 該等預測時,管理層就有關本集團營運所得之 預計現金流量、資本開支及持續可動用之信貸 額作出關鍵假設。本集團能否取得預測現金流 量取決於能否持續取得可動用之信貸額。

鑑於上文所述,董事相信本集團將具備足夠財 務資源以履行其自二零二二年十二月三十一日 起十二個月內到期之財務責任。據此,董事已 按持續經營基準編製本綜合財務報表。

本綜合財務報表乃按歷史成本法編製,惟按公 平值計量之若干物業及金融工具除外,有關之 會計政策闡述如下。

#### Fair value measurements

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these consolidated financial statements is determined on such a basis, except for sharebased payment transactions that are within the scope of HKFRS 2 "Share-based Payment", leasing transactions that are accounted for in accordance with HKFRS 16 "Leases", and measurements that have some similarities to fair value but are not fair value, such as net realisable value in HKAS 2 "Inventories" or value-in-use in HKAS 36 "Impairment of Assets".

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurements in its entirety, which are described as follows:

- Level 1: inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2: inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3: inputs are unobservable inputs for the asset or liability.

## 3. 主要會計政策概要(續)

## 公平值計量

公平值乃於計量日市場參與者於有秩序交易中 出售資產所收取或轉讓負債所支付之價格,而 不論該價格為可直接觀察取得或可使用其他估 值技術估計。於估計資產或負債之公平值時, 本集團會考慮該等市場參與者於計量日對資產 或負債定價時所考慮資產或負債之特點。於本 綜合財務報表中作計量及/或披露用途之公平 值乃按此基準釐定,惟不包括香港財務報告 準則第2號「股份付款」範圍內之以股份付款交 易、根據香港財務報告準則第16號「租賃」入 賬之租賃交易及與公平值有若干類似之處但不 屬公平值之計量,例如香港會計準則第2號「存 貨」之可變現淨值或香港會計準則第36號「資產 減值」之使用價值。

此外,就財務報告用途,根據公平值計量數據 之可觀察程度及數據對公平值計量之整體重要 程度,公平值計量劃分為第一級、第二級及第 三級,如下所述:

- 第一級: 數據為同等之資產或負債(實體能 夠於計量日取得)於活躍市場取得 之報價(未經調整);
- 第二級: 數據為直接或間接從可觀察之資 產或負債所得的數據(於第一級之 報價除外):及
- 第三級: 數據為從資產或負債之非可觀察 數據。

#### (a) Basis of consolidation

#### **Subsidiaries**

The consolidated financial statements incorporate the financial statements of the Company and entities (including structured entities) controlled by the Company and its subsidiaries. Control is achieved when the Company: (i) has power over the investee; (ii) is exposed, or has rights, to variable returns from its involvement with the investee; and (iii) has the ability to use its power to affect its returns.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in profit or loss from the date the Group gains control until the date when the Group ceases to control the subsidiary.

Profit or loss and each item of other comprehensive income are attributed to the owners of the Company and to the noncontrolling interests. Total comprehensive income and expense of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the noncontrolling interests having a deficit balance.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with the Group's accounting policies.

#### (a) 綜合賬目基準

#### 附屬公司

綜合財務報表包括本公司與本公司及其 附屬公司所控制實體(包括結構性實體) 之財務報表。就本公司獲得控制權乃 指:(i)可對接受投資方行使權力:(ii)自 參與接受投資方之業務獲得或有權獲得 可變回報:及(iii)有能力藉對接受投資方 行使其權力而影響其回報。

倘事實及情況顯示上文所列三項控制因 素其中一項或多項改變,則本集團會重 新評估是否仍然對接受投資方擁有控制 權。

本集團獲得附屬公司控制權時便開始將 附屬公司綜合入賬,於失去控制權時則 終止其入賬。具體而言,於年內所收購 或出售附屬公司之收入及開支於本集團 獲得控制權日起計入損益,直至本集團 不再控制該附屬公司為止。

損益及各個其他全面收益項目歸屬於本 公司擁有人及非控股權益。附屬公司之 全面收益及支出總額歸屬於本公司擁有 人及非控股權益,即使此舉會導致非控 股權益結餘為負數。

對附屬公司財務報表在必要時會予以調 整以使其會計政策與本集團會計政策一 致。

## (a) Basis of consolidation (Cont'd)

#### Subsidiaries (Cont'd)

All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

Non-controlling interests in subsidiaries are presented separately from the Group's equity therein, which represent present ownership interests entitling their holders to a proportionate share of net assets of the relevant subsidiaries upon liquidation.

#### Business combinations or asset acquisitions

### Optional concentration test

The Group can elect to apply an optional concentration test, on a transaction-by-transaction basis, that permits a simplified assessment of whether an acquired set of activities and assets is not a business. The concentration test is met if substantially all of the fair value of the gross assets acquired is concentrated in a single identifiable asset or group of similar identifiable assets. The gross assets under assessment exclude cash and cash equivalents, deferred tax assets, and goodwill resulting from the effects of deferred tax liabilities. If the concentration test is met, the set of activities and assets is determined not to be a business and no further assessment is needed.

#### Business combinations

A business is an integrated set of activities and assets which includes an input and a substantive process that together significantly contribute to the ability to create outputs. The acquired processes are considered substantive if they are critical to the ability to continue producing outputs, including an organised workforce with the necessary skills, knowledge, or experience to perform the related processes or they significantly contribute to the ability to continue producing outputs and are considered unique or scarce or cannot be replaced without significant cost, effort, or delay in the ability to continue producing outputs.

#### (a) 綜合賬目基準(續)

#### **附屬公司**(續)

所有有關本集團成員之間之集團內資產 及負債、股本權益、收入、開支及現金 流量交易已於綜合時全數對銷。

附屬公司之非控股權益與本集團之股本 權益分開呈列,即現時擁有權益可於相 關附屬公司清盤時讓其持有人有權按比 例分佔資產淨值。

#### 業務合併或資產收購

#### 選擇性之集中度測試

本集團可以選擇在每項交易的基礎上進 行可選擇性之集中度測試,准許以簡化 評估所購入之一系列活動及資產是否屬 於業務。倘所購入總資產的公平值大致 全部集中在單一可識別資產或一組類似 可識別資產中,則符合集中度測試。就 評估不包括現金及現金等值項目、遞延 税項資產及由遞延税項負債產生之商譽 的總資產。倘符合集中度測試,則釐定 該組活動及資產不屬於業務,因此不需 要作進一步評估。

## 業務合併

當一組活動及資產包括一項投入及一項 實質過程,而兩者對創造產出的能力有 重大貢獻,則屬於一項業務。倘收購過 程對持續生產產出的能力至關重要,包 括具備執行相關過程所需技能、知識或 經驗的有組織之勞動力,或對持續生產 產出的能力有重大貢獻,則被認為屬獨 特或稀缺,或在無重大成本、努力或持 續生產產出能力出現延遲的情況下為不 可取代,則被認為屬有實質性。

## (a) Basis of consolidation (Cont'd)

#### **Subsidiaries** (Cont'd)

Business combinations or asset acquisitions (Cont'd)

#### Business combinations (Cont'd)

Acquisitions of businesses are accounted for using the acquisition method. The consideration transferred in a business combination is measured at fair value, which is calculated as the sum of the acquisition-date fair values of the assets transferred by the Group, liabilities incurred by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. Acquisition-related costs are generally recognised in profit or loss as incurred.

Non-controlling interests that are present ownership interests and entitle their holders to a proportionate share of the entity's net assets in the event of liquidation may be initially measured either at fair value or at the non-controlling interests' proportionate share of the recognised amounts of the acquiree's identifiable net assets. The choice of measurement basis is made on a transaction-by-transaction basis. Other types of non-controlling interests are measured at their fair value or, when applicable, on the basis specified in another HKFRS.

#### Asset acquisitions

When the Group acquires a group of assets and liabilities that do not constitute a business, the Group identifies and recognises the individual identifiable assets acquired and liabilities assumed by allocating the purchase price first to investment properties which are subsequently measured under fair value model and financial assets/financial liabilities at the respective fair values, the remaining balance of the purchase price is then allocated to the other identifiable assets and liabilities on the basis of their relative fair values at the date of purchase. Such a transaction does not give rise to goodwill or bargain purchase gain.

#### (a) 綜合賬目基準(續)

#### **附屬公司**(續)

業務合併或資產收購(續)

#### 業務合併(續)

收購業務應用收購法入賬。業務合併之 轉讓代價按公平值計量,乃以於收購日 之本集團轉讓資產之公平值、本集團付 予被收購方前擁有人所產生之負債及本 集團用作交換被收購方控股權時發行之 股本權益之總和計算。與收購相關的成 本一般於產生時在損益中確認。

屬現時擁有權益且於清盤時讓其持有人 有權按比例分佔實體資產淨值之非控股 權益,初步可按公平值或以非控股權益 分佔該被收購方可識別資產淨值已確認 金額之比例計算。計量基準視乎每項交 易而作出選擇。其他種類的非控股權益 乃按其公平值或按另一項香港財務報告 準則規定之基準計量(當適用)。

#### 資產收購

當本集團收購不構成業務的一組資產及 負債時,本集團識別並確認個別可識別 之所收購資產及承擔負債,將購入價首 先分配至隨後按公平值模式計量之投資 物業以及按各自的公平值之金融資產/ 金融負債,而購入價之餘額根據購買日 的相對公平值分配至其他可識別資產及 負債。此類交易不會產生商譽或議價收 購收益。

## (a) Basis of consolidation (Cont'd)

# Changes in the Group's ownership interests in existing subsidiaries

Changes in the Group's ownership interests in existing subsidiaries that do not result in the Group losing control over the subsidiaries are accounted for as equity transactions. The carrying amounts of the Group's interests and the noncontrolling interests are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to owners of the Company.

When the Group loses control of a subsidiary, a gain or loss is recognised in profit or loss and is calculated as the difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest and (ii) the previous carrying amount of the assets (including goodwill), and liabilities of the subsidiary attributable to the owners of the Company and any non-controlling interests. All amounts previously recognised in other comprehensive income in relation to that subsidiary are accounted for as if the Group had directly disposed of the related assets or liabilities of the subsidiary (i.e. reclassified to profit or loss or transferred to another category of equity as specified/permitted by applicable HKFRSs). The fair value of any investment retained in the former subsidiary at the date when control is lost that is regarded as the fair value on initial recognition for subsequent accounting under HKFRS 9 "Financial Instruments", when applicable, the cost on initial recognition of an investment in an associate or a joint venture.

#### (a) 綜合賬目基準(續)

#### 本集團於現有附屬公司之擁有權益變動

本集團於現有附屬公司之擁有權益變動 若無導致本集團失去對有關附屬公司 之控制權,則按股本權益交易入賬。本 集團權益及非控股權益之賬面值已作調 整,以反映其於附屬公司之相關權益變 動。非控股權益之調整金額與已付或已 收代價之公平值間之任何差額直接於股 本權益確認,並歸屬於本公司擁有人。

當本集團失去附屬公司的控制權時, 收益或虧損於損益中確認,並計算: (i)已收代價之公平值及任何保留權益之 公平值之總額;及(ii)本公司擁有人應佔 附屬公司之資產(包括商譽)及負債先前 之賬面值以及任何非控股權益;兩者之 間的差額。所有先前於其他全面收益中 確認有關該附屬公司的金額猶如本集團 已直接出售附屬公司相關之資產或負債 入賬,即採用適用香港財務報告準則規 定/允許,重新分類至損益或轉撥至另 一類股本權益。在失去控制權當日,任 何保留在前附屬公司投資之公平值被視 作為其後根據香港財務報告準則第9號 「金融工具」入賬之初步確認公平值,當 適用時,作為初步確認投資於聯營公司 或合資公司之成本。

#### (b) Investments accounted for using the equity method

An associate is an entity over which the Group has significant influence and that is neither a subsidiary nor an interest in a joint venture. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

The results and assets and liabilities of associates are incorporated in the consolidated financial statements using the equity method of accounting, except when the investment, or a portion thereof, is classified as held for sale, in which case it is accounted for in accordance with HKFRS 5 "Non-current Assets Held for Sale and Discontinued Operations". Under the equity method, an investment in an associate is initially recognised in the consolidated statement of financial position at cost and adjusted thereafter to recognise the Group's share of the profit or loss and other comprehensive income of the associate. When the Group's share of losses of an associate exceeds the Group's interest in that associate (which includes any long-term interests that, in substance, form part of the Group's net investment in the associate), the Group discontinues recognising its share of further losses. Additional losses are recognised only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate.

### (b) 以權益法入賬之投資

聯營公司為本集團對其擁有重大影響力 之公司,且不屬於附屬公司,亦不屬於 合資公司之權益。重大影響力指有權參 與接受投資方之財務及營運政策決定, 但非對該等政策擁有控制權或共同控制 權。

聯營公司的業績以及資產及負債以會計 權益法於綜合財務報表入賬。惟有關投 資或其中一部分已分類為持作出售,並 根據香港財務報告準則第5號「持作出售 之非流動資產及已終止經營業務」入賬。 根據權益法,於聯營公司的投資初步按 成本於綜合財務狀況報表確認,並隨後 就確認本集團攤佔該聯營公司的損益及 其他全面收益予以調整。當本集團攤佔 聯營公司之虧損超出本集團於該聯營公 司之權益(包括實質上成為本集團於該 聯營公司投資淨額一部分的任何長期權 益)時,本集團終止確認其攤佔的進一步 虧損。僅於本集團已產生法定或推定責 任,或已代表該聯營公司支付款項的情 況下,方會確認額外虧損。

## (b) Investments accounted for using the equity method (Cont'd)

An investment in an associate is accounted for using the equity method from the date on which the investee becomes an associate. On acquisition of the investment in an associate, any excess of the cost of the investment over the Group's share of the net fair value of the identifiable assets and liabilities of the investee is recognised as goodwill, which is included within the carrying amount of the investment. Any excess of the Group's share of the net fair value of the identifiable assets and liabilities over the cost of the investment, after reassessment, is recognised immediately in profit or loss in the period in which the investment is acquired.

The Group assesses whether there is an objective evidence that the interest in an associate may be impaired. When any objective evidence exists, the entire carrying amount of the investment (including goodwill) is tested for impairment in accordance with HKAS 36 as a single asset by comparing its recoverable amount (higher of value-in-use and fair value less costs of disposal) with its carrying amount. Any impairment loss recognised is not allocated to any asset, including goodwill, that forms part of the carrying amount of the investment. Any reversal of that impairment loss is recognised in accordance with HKAS 36 to the extent that the recoverable amount of the investment subsequently increases.

## (b) 以權益法入賬之投資(續)

於聯營公司之投資自接受投資方成為聯 營公司該日起以權益法入賬。收購於聯 營公司之投資時,投資成本超出本集團 攤佔接受投資方可識別資產及負債之公 平值淨值之任何差額確認為商譽,並計 入投資之賬面值。本集團攤佔可識別資 產及負債之公平值淨值超出投資成本之 任何差額,於重新評估後即時在收購該 投資期間於損益中確認。

本集團評估是否出現客觀證據需要就聯 營公司之權益可能出現減值。倘任何客 觀證據存在,投資(包括商譽)的賬面值 悉數將會根據香港會計準則第36號按單 一資產進行減值測試,方法為將其可收 回金額(使用價值與公平值減出售成本的 較高者為準)與其賬面值作比較。確認之 任何減值虧損不會分配至構成投資賬面 值的一部分之任何資產(包括商譽)。該 減值虧損之任何撥回根據香港會計準則 第36號確認,惟受隨後增加的可收回投 資金額規限。

## (b) Investments accounted for using the equity method (Cont'd)

When the Group ceases to have significant influence over an associate, it is accounted for as a disposal of the entire interest in the investee with a resulting gain or loss being recognised in profit or loss. When the Group retains an interest in the former associate and the retained interest is a financial asset within the scope of HKFRS 9, the Group measures the retained interest at fair value at that date and the fair value is regarded as its fair value on initial recognition. The difference between the carrying amount of the associate and the fair value of any retained interest and any proceeds from disposing of the relevant interest in the associate is included in the determination of the gain or loss on disposal of the associate. In addition, the Group accounts for all amounts previously recognised in other comprehensive income in relation to that associate on the same basis as would be required if that associate had directly disposed of the related assets or liabilities. Therefore, if a gain or loss previously recognised in other comprehensive income by that associate would be reclassified to profit or loss on the disposal of the related assets or liabilities, the Group reclassifies the gain or loss from equity to profit or loss (as a reclassification adjustment) upon disposal/partial disposal of the relevant associate.

When a group entity transacts with an associate of the Group, profits and losses resulting from the transactions with the associate are recognised in the consolidated financial statements only to the extent of interests in the associate that are not related to the Group.

# (b) 以權益法入賬之投資(續)

當本集團不再擁有對聯營公司重大影響 力時,將按出售接受投資方全部權益計 算收益或虧損入賬並於損益中確認。倘 本集團保留於前聯營公司之權益且該保 留權益為香港財務報告準則第9號範圍 內之金融資產,則本集團會於該日按公 平值計量保留權益,而該公平值被視為 於初步確認時之公平值。聯營公司之賬 面值與任何保留權益及出售聯營公司相 關權益時所得任何款項之公平值間之差 額,會於釐定出售該聯營公司之收益或 虧損時入賬。此外,本集團會將先前在 其他全面收益就該聯營公司確認之所有 金額入賬,與猶如該聯營公司直接出售 相關資產或負債所需基準相同。因此, 倘該聯營公司先前在其他全面收益確認 之收益或虧損會於出售相關資產或負債 時重新分類至損益,本集團會於出售/ 部分出售相關聯營公司時將收益或虧損 由股本權益重新分類至損益(作為重新分 類調整)。

當集團實體與本集團之聯營公司進行交 易時,與聯營公司交易所產生之溢利及 虧損僅於聯營公司之權益與本集團無關 時,方於綜合財務報表確認。

# (c) Impairment losses (other than goodwill and intangible assets with indefinite useful lives)

At the end of the reporting period, the Group reviews the carrying amounts of its tangible assets and intangible assets with finite useful lives to determine whether there is any indication that those assets have suffered an impairment loss. If the recoverable amount of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss.

When an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

# (d) Investment properties and investment properties under construction

Investment properties are properties held to earn rental income and/or for capital appreciation including properties under construction for such purpose and land held for a currently undetermined future use.

Investment properties are initially measured at cost, including any directly attributable expenditure. Subsequent to initial recognition, investment properties are measured at fair value, adjusted to exclude any prepaid or accrued operating lease income.

Gains or losses arising from changes in the fair value of investment properties are included in profit or loss for the period in which they arise.

Costs incurred for construction of investment properties under construction are capitalised as part of the carrying amount of the investment properties under construction.

## (c) 減值虧損(商譽及無限使用年期之無形資 產除外)

於報告期末,本集團會審視其有形資產 及其有限使用年期之無形資產之賬面 值,以釐定該等資產有否出現任何減值 虧損之跡象。倘估計資產之可收回金額 低於其賬面值,則該資產之賬面值會減 至其可收回金額。減值虧損則即時於損 益中確認。

當減值虧損於其後撥回時,資產之賬面 值會提高至經修訂之估計可收回金額, 惟所提高之賬面值不得超出在過往年度 未有就資產確認減值虧損之情況下之賬 面值。減值虧損之撥回會即時於損益中 確認。

#### (d) 投資物業及興建中投資物業

投資物業為持作賺取租金收入及/或資 本增值用途之物業,包括作為該用途之 興建中物業及現時持有但未決定日後用 途之土地。

投資物業初步按成本(包括任何直接應佔 開支)計量。於初步確認後,投資物業按 公平值計量,並予以調整以撇除任何預 付或應計的經營租賃收入。

投資物業公平值變動所產生之收益或虧 損會於產生期間內計入損益。

興建中投資物業於建築時所產生之成本 會被資本化為興建中投資物業賬面值的 一部分。

#### (d) Investment properties and investment properties under construction (Cont'd)

Leasehold land held for undetermined future use is regarded as held for capital appreciation purpose and classified as an investment property, and carried at fair value. Changes in fair value of the leasehold land are recognised directly in profit or loss for the period in which changes take place.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from its disposal. Any gain or loss arising from derecognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the property) is included in profit or loss for the period in which the property is derecognised.

An investment property is transferred at fair value to property, plant and equipment when the property begins to be occupied by the owner or of development with a view to owneroccupation. Gain or loss arising from change in fair value of the investment property upon the transfer is included in profit or loss.

An owner-occupied property is transferred from property, plant and equipment to investment properties at fair value when it is evidenced by the end of owner-occupation. The difference between the carrying amount and the fair value at the date of transfer is recognised in other comprehensive income and accounted for as a revaluation increase or decrease in accordance with HKAS 16 "Property, Plant and Equipment". On the subsequent sale or retirement of assets, the relevant revaluation reserve is transferred directly to retained profits.

A property is transferred from investment property to stock of properties when, and only when, there is a change in use, evidenced by commencement of development with a view to sale. Any difference between the fair value of the property at the date of change in use and its previous carrying amount is recognised in profit or loss.

持有但未決定日後用途之租賃土地被視 為持作資本增值用途而分類為投資物 業,並以公平值列賬。租賃土地公平值 之變動於變動發生期間直接於損益中確 認。

當投資物業開始由業主自用或發展以作 業主自用時,則該物業按公平值轉撥至 物業、廠房及設備。於轉撥時投資物業 公平值變動所產生之收益或虧損計入損 益。

當業主自用之物業於終止由業主自用時 以公平值由物業、廠房及設備轉撥至投 資物業。於轉撥日賬面值與公平值之差 額將根據香港會計準則第16號「物業、 廠房及設備」以重估值增加或減少入賬, 並於其他全面收益中確認。隨後在銷售 或報廢資產時,有關重估儲備將直接轉 撥至保留溢利。

#### (e) Property, plant and equipment

Property, plant and equipment are stated at cost less subsequent accumulated depreciation and accumulated impairment losses, if any.

Any gain or loss arising from derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in profit or loss in the period in which the asset is derecognised. 物業、廠房及設備於出售時或當繼續使 用資產預期不會產生日後經濟利益時取 消確認。取消確認資產所產生之任何收 益或虧損(按出售所得款項淨額與資產賬 面值之差額計算)於取消確認該資產期間 內計入損益。

#### 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

#### (f) **Stock of properties**

Stock of properties including completed properties which are held-for-trading, is stated at the lower of cost and net realisable value.

The cost of completed properties held for sale is determined by apportionment of the total development costs, including borrowing costs capitalised, attributable to unsold units. Net realisable value is estimated by the management of the Group based on prevailing market conditions, which represents the estimated selling price less estimated costs to be incurred in selling the property.

The amount of any write-down of or provision for completed properties held for sale is recognised as an expense in the period when the write-down or loss occurs. The amount of any reversal of any write-down or provision, arising from an increase in net realisable value, is recognised as a reduction in the amount of completed properties held for sale recognised as an expense in the period in which the reversal occurs.

#### (g) Inventories

Inventories comprise finished goods and raw materials for cosmetics products, which are stated at the lower of cost and net realisable value. Cost represents the invoiced cost of inventories. Costs are assigned to individual items on the weighted-average basis.

Net realisable value is the estimated selling price in the ordinary course of business, less applicable variable selling expenses.

#### (h) **Intangible assets**

#### Trading rights, exchange rights and trademark

Trading rights, gold and silver exchange rights and trademark are stated at cost less accumulated amortisation and less any identified impairment loss. The amortisation period adopted for intangible assets is five years.

#### (i) Financial instruments

Financial assets and financial liabilities are recognised in the consolidated statement of financial position when a group entity becomes a party to the contractual provisions of the financial instruments. Financial assets and financial liabilities are initially measured at fair value. A financial asset or financial liability (unless it is a trade receivable without a significant financing component) is initially measured at fair value through profit or loss ("FVTPL"), transaction costs that are directly attributable to its acquisition or issue. A trade receivable without a significant financing component is initially measured at the transaction price.

#### **Financial assets**

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

*(i) Classification and subsequent measurement of financial assets* 

Financial assets that meet the following conditions are subsequently measured at amortised cost (except for debt investments that are designated as at FVTPL on initial recognition):

- the financial asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

(i) Classification and subsequent measurement of financial assets (Cont'd)

Financial assets that meet the following conditions are subsequently measured at FVTOCI:

- the financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial asset; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

All other financial assets that are other than those categorised as amortised cost and FVTOCI above, are categorised as measured at FVTPL.

A financial asset is held-for-trading if:

- it has been acquired principally for the purpose of selling in the near term;
- on initial recognition it is a part of a portfolio of identified financial instruments that the Group manages together and has a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument.

In addition, the Group may irrevocably designate a financial asset that is required to be measured at the amortised cost or FVTOCI as measured at FVTPL if doing so eliminates or significantly reduces an accounting mismatch.

According to HKFRS 9, the Group may make an irrevocable election (on an instrument-byinstrument basis) to designate investments in equity instruments as at FVTOCI. Designation at FVTOCI is not permitted if the equity investment is held-for-trading. A financial asset is held-fortrading if it has been acquired principally for the purpose of selling it in the near term or it is a derivative that is not designated and effective as a hedging instrument.

Investments in equity instruments at FVTOCI are initially measured at fair value plus transaction costs. Subsequently, they are measured at fair value with gains and losses arising from changes in fair value recognised in other comprehensive income and accumulated in the financial assets measured at FVTOCI reserve. Fair value is determined in the manner described in Note 5(c) to the consolidated financial statements.

Dividend income is recognised in profit or loss and is included in revenue.

Debt instruments that do not meet the amortised cost and FVTOCI criteria (see above) are measured at FVTPL. In addition, debt instruments that meet the amortised cost criteria but are designated as at FVTPL are measured at FVTPL. Lifetime ECL represents the ECL that will result from all possible default events over the expected life of the relevant instrument. In contrast, 12-month ECL ("12m ECL") represents the portion of lifetime ECL that is expected to result from default events that are possible within 12 months after the end of the reporting period. Assessment is done based on the Group's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current conditions at the reporting date as well as the forecast of future conditions.

The Group always recognises lifetime ECL for trade receivables. The ECL on these assets are assessed individually for significant balances or collectively using a provision matrix with appropriate groupings.

For all other instruments, the Group measures the loss allowance equal to 12m ECL, unless when there has been a significant increase in credit risk since initial recognition, the Group recognises lifetime ECL. The assessment of whether lifetime ECL should be recognised is based on significant increases in the likelihood or risk of a default occurring since initial recognition.

#### Significant increase in credit risk

In assessing whether the credit risk has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition. In making this assessment, the Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort.

In particular, the following information is taken into account when assessing whether credit risk has increased significantly:

- an actual or expected significant deterioration in the financial instrument's external (if available) or internal credit rating;
- significant deterioration in external market indicators of credit risk;
- existing or forecast adverse changes in business, financial or economic conditions that are expected to cause a significant decrease in the debtor's ability to meet its debt obligations;
- an actual or expected significant deterioration in the operating results of the debtor;
- an actual or expected significant adverse change in the regulatory, economic, or technological environment of the debtor that results in a significant decrease in the debtor's ability to meet its debt obligations.

#### Significant increase in credit risk (Cont'd)

Irrespective of the outcome of the above assessment, the Group presumes that the credit risk has increased significantly since initial recognition when contractual payments are more than 30 days past due, unless the Group has reasonable and supportable information that demonstrates otherwise.

The Group regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying significant increase in credit risk before the amount becomes past due.

#### Definition of default

For internal credit risk management, the Group considers an event of default occurs when information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Group, in full.

Irrespective of the above, the Group considers that default has occurred when a financial asset is more than 90 days past due unless the Group has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate.

本集團定期監察以識別信貸風險 曾否大幅增加的標準之成效,並 於適當時作出修訂,從而確保有 關標準能夠於款項逾期前識別信 貸風險大幅增加。

#### 違約定義

就內部信貸風險管理而言,本集 團認為當內部產生或從外部來源 所得資料顯示,債務人不大可能 向其債權人(包括本集團)支付悉數 款項時,則出現違約事件。

無論上述如何,倘金融資產逾期 超過90日,本集團將視作已發生 違約,除非本集團有合理及具理 據資料證明較寬鬆之違約標準更 為恰當,則另作別論。 For the year ended 31 December 2022 截至二零二二年十二月三十一日止年度

#### Write-off policy

The Group writes off a financial asset when there is information indicating that the counterparty is in severe financial difficulty and there is no realistic prospect of recovery, for example, when the counterparty has been placed under liquidation or has entered into bankruptcy proceedings, or in the case of trade receivables, when the amounts are over one year past due, whichever occurs sooner, unless the Group has reasonable and supportable information to demonstrate a later period is more appropriate. Financial assets written off may still be subject to enforcement activities under the Group's recovery procedures, taking into account legal advice where appropriate. A write-off constitutes a derecognition event. Any subsequent recoveries are recognised in profit or loss.

#### Measurement and recognition of ECLs

The measurement of ECL is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data and forwardlooking information. Estimation of ECL reflects an unbiased and probability-weighted amount that is determined with the respective risks of default occurring as the weights. The Group uses a practical expedient in estimating ECL on trade receivables using a provision matrix taking into consideration historical credit loss experience, adjusted for forward-looking information that is available without undue cost or effort.

Generally, the ECL is the difference between all contractual cash flows that are due to the Group in accordance with the contract and the cash flows that the Group expects to receive, discounted at the effective interest rate determined at initial recognition.

## (i) Financial instruments (Cont'd)

#### Financial assets (Cont'd)

(ii) Impairment of financial assets (Cont'd)

#### Credit-impaired financial assets

At each reporting date, the Group assesses on a forward-looking basis whether financial assets carried at amortised cost are credit-impaired. A financial asset is "credit-impaired" when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired includes observable data of the following events:

- significant financial difficulty of the issuer or borrower;
- a breach of contract such as a default or past due event;
- the lender(s) of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession(s) that the lender(s) would not otherwise consider; or
- it is becoming probable that the borrower will enter bankruptcy or other financial reorganisation, or the disappearance of an active market for a security because of financial difficulties.

#### (iii) Derecognition of financial assets

Financial assets are derecognised when the contractual rights to receive cash flows from the assets expire or, the financial assets are transferred and the Group has transferred substantially all the risks and rewards of ownership of the financial assets to another entity. (i) 金融工具(續)

(iii) Derecognition of financial assets (Cont'd)

On derecognition of a financial asset, except for an investment in equity instrument that is classified as FVTOCI, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss.

On derecognition of an investment in equity instrument that is classified as at FVTOCI, the cumulative gain or loss previously accumulated in the financial assets measured at FVTOCI reserve is not reclassified to profit or loss, but is transferred to retained profits.

#### Financial liabilities and equity instruments

(i) Classification and measurement

Financial liabilities and equity instruments issued by a group entity are classified as either financial liabilities or equity instruments according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities. The Group's financial liabilities are generally classified into (i) financial liabilities at FVTPL and (ii) other financial liabilities subsequently measured at amortised cost. The accounting policies adopted in respect of financial liabilities and equity instruments are set out below. (i) 金融工具(續)

#### (i) **Financial instruments** (Cont'd)

**Financial liabilities and equity instruments** (Cont'd)

- (i) Classification and measurement (Cont'd)
  - (1) Financial liabilities at FVTPL

Financial liabilities at FVTPL, representing those as held-for-trading, comprise derivatives that are not designated and effective as hedging instruments.

Financial liabilities at FVTPL are measured at fair value, with changes in fair value arising from remeasurement recognised directly in profit or loss in the period in which they arise.

(2) Other financial liabilities subsequently measured at amortised cost and effective interest method

Other financial liabilities are subsequently measured at amortised cost, using the effective interest method. Interest expense that is not capitalised as part of costs of an asset is included in finance costs.

The effective interest method is a method of calculating the amortised cost of a financial liability and allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability or, where appropriate, a shorter period, to the net carrying amount at initial recognition.

Interest expense is recognised using effective interest method for financial liabilities, other than those financial liabilities at FVTPL.

#### (ii) Derecognition/modification of financial liabilities (Cont'd)

Except for changes in the basis for determining the contractual cash flows as a result of interest rate benchmark reform in which the Group applies the practical expedient, when the contractual terms of a financial liability are modified, the Group assesses whether the revised terms result in a substantial modification from original terms taking into account all relevant facts and circumstances including qualitative factors. If qualitative assessment is not conclusive, the Group considers that the terms are substantially different if the discounted present value of the cash flows under the new terms, including any fees paid net of any fees received, and discounted using the original effective interest rate, is at least 10% different from the discounted present value of the remaining cash flows of the original financial liability. Accordingly, such modification of terms is accounted for as an extinguishment, any costs or fees incurred are recognised as part of the gain or loss on the extinguishment. The exchange or modification is considered as non-substantial modification when such difference is less than 10%.

For non-substantial modifications of financial liabilities that do not result in derecognition, the carrying amount of the relevant financial liabilities will be calculated at the present value of the modified contractual cash flows discounted at the financial liabilities' original effective interest rate. Transaction costs or fees incurred are adjusted to the carrying amount of the modified financial liabilities and are amortised over the remaining term. Any adjustment to the carrying amount of the financial liability is recognised in profit or loss at the date of modification.

(ii) 取消確認/修改金融負債(續)

除本集團因利率基準改革而導致 合約現金流量之釐定基準變動而 應用實際權宜方法外,當金融負 債合約條款被修改時,本集團會 考慮包括定性因素在內的所有相 關事實和情況而評估經修改之條 款有否導致原有條款出現重大修 改。倘定性評估並無結論,本集 團認為倘新條款下現金流量之貼 現現值(包括任何已付費用減任何 已收費用,並用原有實際利率貼 現)與原有金融負債剩餘現金流量 之貼現現值相差至少10%,則條 款存在重大差異。因此,該等條 款修改被視為終止確認,所產生 之任何成本或費用均確認為終止 確認收益或虧損一部分。當該差 額低於10%時,交換或修改會被 視為非重大修改。

對於不導致取消確認金融負債之 非重大修改,相關金融負債賬面 值將按照經修改之合約現金流量 按金融負債原有實際利率貼現之 現值計算。所產生之交易成本或 費用已就經修改之金融負債之賬 面值作出調整,並按尚餘期內攤 銷。金融負債賬面值之任何調整 於修改日期於損益中確認。

(i) Financial instruments (Cont'd)

> Change in the basis for determining the contractual cash flows as a result of interest rate benchmark reform

For changes in the basis for determining the contractual cash flows of a financial asset or financial liability to which the amortised cost measurement applies as a result of interest rate benchmark reform the Group applies the practical expedient to account for these changes by updating the effective interest rate, such change in effective interest rate normally has no significant effect on the carrying amount of the relevant financial asset or financial liability.

A change in the basis for determining the contractual cash flows is required by interest rate benchmark reform if and only if, both these conditions are met:

- the change is necessary as a direct consequence of interest rate benchmark reform; and
- the new basis for determining the contractual cash flows is economically equivalent to the previous basis (i.e. the basis immediately preceding the change).

For other changes made to a financial asset or financial liability in addition to changes to the basis for determining the contractual cash flows required by interest rate benchmark reform, the Group first applies the practical expedient to the changes required by interest rate benchmark reform by updating the effective interest rate.

#### **Derivative financial instruments**

Derivatives are initially recognised at fair value at the date a derivative contract is entered into and are subsequently remeasured to their fair value at the end of the reporting period. The resulting gain or loss is recognised in profit or loss immediately.

## 利率基準改革導致合約現金流量之釐定 基準變動

就應用攤銷成本計量之金融資產或金融 負債之合約現金流量之釐定基準因利率 基準改革而導致之變動,本集團應用實 際權宜方法就該等變動以更新實際利率 入賬,該實際利率變動一般不會對相關 金融資產或金融負債之賬面值造成重大 影響。

僅限於符合以下兩項條件時,就利率基 準改革要求對合約現金流量之釐定基準 作出變動:

- 該變動必須為利率基準改革之直 接結果;及
- 釐定合約現金流量之新基準在經 濟上等同於之前的基準(即緊接變 動前之基準)。

除合約現金流量之釐定基準須就利率基 準改革而變動外,對於金融資產或金融 負債作出之其他變動,本集團首先應用 實際權宜方法就利率基準改革要求之變 動更新實際利率。

### Financial guarantee contract

A financial guarantee contract is a contract that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payment when due in accordance with the original or modified terms of a debt instrument. Financial guarantee contract liabilities are measured initially at their fair values and, if not designated as at FVTPL and do not arise from a transfer of an asset, are measured subsequently at the higher of:

- the amount of the loss allowance determined in accordance with HKFRS 9 (see financial assets above); and
- the amount initially recognised less, where appropriate, the cumulative amortisation recognised over the guarantee period.

#### (j) Cash and cash equivalents

For the purpose of the consolidated statement of cash flows, cash and cash equivalents comprise cash on hand and demand deposits, and short term highly liquid investments that are readily convertible into known amounts of cash, are subject to an insignificant risk of changes in value, and have a short maturity of generally within three months when acquired, less bank overdrafts which are repayable on demand and form an integral part of the Group's cash management.

For the purpose of the consolidated statement of financial position, cash and cash equivalents comprise cash on hand and at banks, including term deposits, and assets similar in nature to cash, which are not restricted as to use.

#### (k) Revenue recognition

- 根據香港財務報告準則第9號而釐 定虧損撥備之金額(見上文金融資 產);及
- 以初步確認之金額減於擔保期間 確認之累計攤銷(如適用)。

#### (j) 現金及現金等值項目

#### (k) **Revenue recognition** (Cont'd)

A performance obligation represents a good or service (or a bundle of goods or services) that is distinct or a series of distinct goods or services that are substantially the same.

Control is transferred over time and revenue is recognised over time by reference to the progress towards complete satisfaction of the relevant performance obligation if one of the following criteria is met:

- the customer simultaneously receives and consumes the benefits provided by the Group's performance as the Group performs;
- the Group's performance creates and enhances an asset that the customer controls as the Group performs; or
- the Group's performance does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

Otherwise, revenue is recognised at a point in time when the customer obtains control of the distinct good or service.

A contract asset represents the Group's right to consideration in exchange for goods or services that the Group has transferred to a customer that is not yet unconditional. It is assessed for impairment in accordance with HKFRS 9. In contrast, a receivable represents the Group's unconditional right to consideration.

A contract liability represents the Group's obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer.

A contract asset and a contract liability relating to a contract are accounted for and presented on a net basis.

Revenue is measured at the fair value of the consideration received or receivable.

#### 收入確認(續) (k)

履約責任指可分別之貨品或服務(或一組 貨品或服務)或一系列大致相同之可分別 之貨品或服務。

倘符合以下其中一項標準,則控制權於 一段時間內轉移,而收入則參照完全履 行相關履約責任之進展情況而於一段時 間內確認:

- 於本集團履約時,客戶同時取得 並耗用本集團履約所提供之利 益;
- 本集團之履約產生及提升資產, 而該項資產於本集團履約時由客 戶控制;或

否則,收入於客戶取得可分別之貨品或 服務控制權之時點確認。

合約資產指本集團就換取本集團已向客 戶轉讓之貨品或服務而收取代價之權 利,而該權利尚未成為無條件,須根據 香港財務報告準則第9號作減值評估。 相反,應收款項指本集團收取代價之權 利成為無條件。

合約負債指本集團因已向客戶收取代價 (或已到期之代價金額),而須向客戶轉 讓貨品或服務之責任。

與合約有關之合約資產及合約負債以淨 額入賬及呈列。

收入乃按已收或應收代價之公平值計 量。

#### **Revenue recognition** (Cont'd) (k)

Rental income, including rental invoiced in advance from properties under operating leases, is recognised in profit or loss on a straight-line basis over the term of the relevant lease.

Building management fee income, property management services income and management fee income are recognised in accordance with terms of respective agreements over the relevant period in which the services are rendered. Revenue from provision of building and property management services is recognised over time as the customer simultaneously receives and consumes the benefit provided by the Group's performance as the Group performs.

Sales of securities investments are recognised on a trade date basis.

Brokerage income on dealings in securities and futures contracts is recognised at the point in time when the relevant contract notes are executed.

Dividend income from investments is recognised when the Group's right to receive payment has been established.

Revenue from sales of cosmetics products is recognised at the point in time when goods are delivered and titles have been passed.

Revenue from sales of properties held for sale in the ordinary course of business is recognised when the legal assignment is completed, which is the point in time when the purchaser has the ability to direct the use of the property and obtain substantially all of the remaining benefits of the property.

Interest income from a financial asset is accrued on a time basis by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts the estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount at initial recognition.

# 3. SUMMARY OF SIGNIFICANT ACCOUNTING 3. 主要會計政策概要(續) POLICIES (Cont'd)

#### (I) Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit before tax as reported in the consolidated statement of comprehensive income because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries and associates, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the assets to be recovered.

## (I) 税項

所得税開支指當期應付税項及遞延税項 之總和。

當期應付税項按年度應課税溢利計算。 應課税溢利與綜合全面收益報表所報除 税前溢利不同,此乃由於其不包括在其 他年度應課税之收入或可扣減之開支, 亦不包括永不課税或扣減之項目。本集 團之當期税項負債於報告期末以已頒布 或實質頒布之税率計算。

遞延税項按綜合財務報表內資產及負債 賬面值與用於計算應課税溢利之相關 税基兩者之暫時差異確認。遞延税項負 債通常會就所有應課税暫時差異確認, 遞延税項資產通常就所有可扣減暫時差 異限於較可能於日後取得應課税溢利, 而該等可扣減暫時差異可用以抵銷時確 認。若暫時差異因商譽或因於一項既不 影響應課税溢利或會計溢利之交易(業務 合併除外)中初步確認其他資產及負債而 引致,則不會確認該等遞延税項資產及 負債。

本集團會就於附屬公司及聯營公司之投 資之有關應課税暫時差異確認遞延税項 負債,惟本集團有能力控制暫時差異之 撥回及暫時差異不大可能於可見將來撥 回則另作別論。

遞延税項資產之賬面值於各報告期末均 作檢討,並在不大可能再有足夠應課税 溢利收回全部或部分資產時減少。
#### (I) Taxation (Cont'd)

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset is realised. Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively. Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

For leasing transactions in which the tax deductions are attributable to the lease liabilities, the Group applies HKAS 12 "Income Taxes" requirements to right-of-use assets and lease liabilities separately. Temporary differences on initial recognition of the relevant right-of-use assets and lease liabilities are not recognised due to application of the initial recognition exemption. Temporary differences arising from subsequent revision to the carrying amounts of right-of-use assets and lease liabilities, resulting from remeasurement of lease liabilities and lease modifications, that are not subject to initial recognition exemption are recognised on the date of remeasurement or modification.

Deferred tax assets and liabilities are offset when they relate to income taxes levied by the same tax authority and the entity intends to settle its current tax assets and liabilities on a net basis.

### (I) 税項(續)

遞延税項資產及負債乃按於負債償還或 資產變現期間所預期之適用税率計量。 當期税項及遞延税項會於損益中確認, 惟當相關項目於其他全面收益或直接於 股本權益中確認,在此情況下,其當期 税項及遞延税項亦會分別於其他全面收 益或直接於股本權益中確認。若當期税 項或遞延税項乃因初步就業務合併入賬 而產生,其税務影響會納入業務合併之 會計處理中。

就税項扣減乃源自租賃負債之租賃交易 而言,本集團分別對使用權資產及租賃 負債應用香港會計準則第12號「所得税」 之規定。由於應用初步確認豁免,與使 用權資產及租賃負債有關之暫時差異不 會於初步確認時確認。因重新計量租賃 負債及租賃修改而導致使用權資產及租 賃負債的賬面值在後續修訂產生之暫時 差異,由於初步確認豁免不適用,因此 於重新計量或修改日期確認。

如所得税是由同一税務當局徵收,而實 體打算支付其當期税項資產及負債之淨 額,有關遞延税項資產及負債可以互相 抵銷。

#### (m) Leasing

#### **Definition of lease**

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

For contracts entered into or modified or arising from business combinations on or after the date of initial application, the Group assesses whether a contract is or contains a lease based on the definition under HKFRS 16 at inception, modification date or acquisition date, as appropriate. Such contract will not be reassessed unless the terms and conditions of the contract are subsequently changed.

#### The Group as lessee

#### Allocation of consideration to components of a contract

For a contract that contains a lease component and one or more additional lease or non-lease components, the Group allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

#### Short-term leases and leases of low-value assets

The Group applies the short-term lease recognition exemption to short-term leases of assets (i.e. those leases that have a lease term of twelve months or less from the commencement date and do not contain a purchase option). The Group also applies the lease of low-value assets recognition exemption to lease of office equipment that are considered as low value. Lease payments on short-term leases and leases of low-value assets are recognised as expenses on a straight-line basis over the lease term.

#### (m) 租賃

#### 租賃之定義

倘合約為換取代價而授予已識別資產在 一段期間內之使用控制權,則該合約為 租賃或包含租賃。

就於首次應用日期或之後訂立或修改或 自業務合併所產生之合約而言,本集團 於開始、修改日期或收購日期(如適用) 基於香港財務報告準則第16號項下之定 義,評估合約是否為租賃或包含租賃。 除非合約之條款及條件隨後發生變動, 否則將不會重新評估有關合約。

#### 本集團為承租人

#### 分配合約代價之組成部分

對於包含一項租賃組成部分及一項或多 項額外的租賃或非租賃組成部分之合 約,本集團根據租賃組成部分之相對單 獨價格及非租賃組成部分之單獨價格總 和將合約代價分配至各個租賃組成部 分。

#### 短期租賃及低價值資產租賃

本集團將短期租賃確認豁免應用於短期 租賃之資產(即該等自租賃開始日期起計 租期為十二個月或以下且不包含購買選 擇權之租賃)。本集團亦將低價值資產租 賃確認豁免應用於被認為低價值之辦公 室設備租賃。短期租賃及低價值資產租 賃之租賃付款於租期內以直線法確認為 開支。

(m) Leasing (Cont'd)

#### The Group as lessee (Cont'd)

#### Right-of-use assets

The Group recognises right-of-use assets at the commencement date of the lease (i.e. the date which the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, estimated costs to be incurred by the lessee in restoring the underlying asset to the condition required by the terms and conditions of the lease, and lease payments made at or before the commencement date less any lease incentives received. Unless the Group is reasonably certain to obtain ownership of the leased asset at the end of the lease term, the recognised right-of-use assets are depreciated on a straightline basis over the shorter of its estimated useful life and the lease term. Right-of-use assets are subject to impairment.

The Group presents right-of-use assets as a separate line item in the consolidated statement of financial position.

#### Refundable rental deposits

Refundable rental deposits paid are accounted for under HKFRS 9 and initially measured at fair value. Adjustments to fair value at initial recognition are considered as additional lease payments and included in the cost of right-of-use assets.

#### (m) 租賃(續)

#### 本集團為承租人(續)

#### 使用權資產

本集團於租賃開始日期(即相關資產可供 使用日期)確認使用權資產。使用權資 產按成本減任何累積折舊及減值虧損計 量,並就任何重新計量租賃負債作出調 整。使用權資產成本包括已確認租賃負 債金額、已產生初步直接成本、承租人 將相關資產還原至租賃條款及條件要求 之狀況所產生之估計成本,以及於開始 日期或之前已作出之租賃付款減任何已 收租賃優惠。除非本集團合理地確定於 租期結束時取得租賃資產擁有權,否則 已確認使用權資產於其估計可使用年期 及租期(以較短者為準)按直線法計算折 舊。使用權資產須予以減值。

使用權資產於本集團綜合財務狀況報表 中以單獨項目呈列。

#### 可退還租金按金

已付之可退還租金按金乃根據香港財務 報告準則第9號入賬及初步按公平值計 量。初步確認時對公平值作出之調整被 視作額外租賃付款並包含在使用權資產 成本中。

(m) Leasing (Cont'd)

#### The Group as lessee (Cont'd)

## Lease liabilities

At the commencement date of a lease, the Group recognises lease liabilities measured at the present value of lease payments to be made over the lease term. In calculating the present value of lease payments, the Group uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable.

The lease payments include:

- fixed payments (including in-substance fixed lease payments) less any lease incentives receivable;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable by the Group under residual value guarantees;
- the exercise price of a purchase option if the Group is reasonably certain to exercise the option; and
- payments of penalties for terminating a lease, if the lease term reflects the Group exercising an option to terminate the lease.

After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. (m) 租賃(續)

#### 本集團為承租人(續)

#### 租賃負債

於租賃開始日期,本集團確認於租期內 作出之租賃付款以現值計量之租賃負 債。於計算租賃付款之現值時,倘租賃 之隱含利率不易釐定,則本集團使用租 賃開始日期之遞增借貸利率計算。

租賃付款包括:

- 定額付款(含實質定額租賃付款)減
  任何應收租賃優惠;
- 取決於一項指數或利率之可變租 賃付款,初步計量時使用開始日 期之指數或利率;
- 本集團根據剩餘價值擔保預期應 付金額;
- 購買選擇權之行使價,倘本集團 合理地確定行使選擇權;及
- 倘租賃條款反映本集團行使終止
  租賃之選擇權而支付終止租賃之
  罰款。

於開始日期後,租賃負債金額增加反映 利息之增加,其減少則為租賃付款所 致。

(m) Leasing (Cont'd)

#### The Group as lessee (Cont'd)

Lease liabilities (Cont'd)

The Group remeasures lease liabilities (and makes a corresponding adjustment to the related right-of-use assets) whenever:

- change in the lease term or change in the assessment of exercise of a purchase option to purchase the underlying asset, in which case the related lease liability is remeasured by discounting the revised lease payments using a revised discount rate at the date of reassessment;
- change in lease payments arising from change in an index or rate or expected payment under a guaranteed residual value, in which cases the related lease liability is remeasured by discounting the revised lease payments using the initial discount rate.

The Group presents lease liabilities as a separate line item in the consolidated statement of financial position.

#### Lease modifications

For a lease modification that is not accounted for as a separate lease, the Group remeasures the lease liability based on the lease term of the modified lease by discounting the revised lease payments using a revised discount rate at the effective date of the modification.

#### The Group as lessor

Rental income from operating leases is recognised in profit or loss on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised as an expense on a straight-line basis over the lease term.

#### (m) 租賃(續)

本集團為承租人(續)

租賃負債(續)

倘出現以下情況,本集團重新計量租賃 負債(並就相關使用權資產作出相應調 整):

- 租期之變動或購買相關資產之行 使購買選擇權之評估發生變化, 在該情況下,於重新評估日期, 有關租賃負債使用經修訂貼現率 貼現經修訂租賃付款重新計量;
- 若租賃付款因一項指數或利率變 動或有擔保剩餘價值下預期付款 變動而出現變動,則有關租賃負 債使用初步之貼現率貼現經修訂 租賃付款重新計量。

租賃負債於本集團綜合財務狀況報表中 以單獨項目呈列。

#### 租賃修改

對於並非作為一項單獨租賃入賬之租賃 修改,本集團根據經修改租賃之租期重 新計量租賃負債,計量方式為使用修改 生效日期之經修訂貼現率貼現經修訂租 賃付款。

#### 本集團為出租人

營業租約之租金收入會按有關租約年期 以直線法於損益中確認。磋商及安排營 業租約時產生之初步直接成本會加入租 賃資產之賬面值,並按租約年期以直線 法確認為開支。

(m) Leasing (Cont'd)

#### The Group as lessor (Cont'd)

#### Lease modification

Changes in considerations of lease contracts that were not part of the original terms and conditions are accounted for as lease modifications, including lease incentives provided through forgiveness or reduction of rentals.

#### Operating leases

The Group accounts for a modification to an operating lease as a new lease from the effective date of the modification, considering any prepaid or accrued lease payments relating to the original lease as part of the lease payments for the new lease.

#### (n) Foreign currencies

In preparing the financial statements of each individual group entity, transactions in currencies other than the functional currency of that entity (foreign currencies) are recorded at the rates of exchange prevailing at the dates of the transactions. At the end of the reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. When a fair value gain or loss on a non-monetary item is recognised in profit or loss, any exchange component of that gain or loss is also recognised in profit or loss. When a fair value gain or loss on a non-monetary item is recognised in other comprehensive income, any exchange component of that gain or loss is also recognised in other comprehensive income. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing on the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in foreign currencies are not retranslated.

#### (m) 租賃(續)

#### 本集團為出租人(續)

#### 租賃修改

對不屬於租賃合約內原始條款及條件之 代價變更,將作為租賃修改處理,包括 透過減免或減少租金提供租賃優惠。

營業租賃

本集團自修改生效日起將營業租賃之修 訂作為新租約入賬,並將與原租約相關 之任何預付或應計租賃款項視為新租約 之租賃款項之一部分。

#### (n) 外幣

在編製個別集團實體之財務報表時,以 實體功能貨幣以外之貨幣(外幣)進行之 交易按交易日通用之匯率入賬。於報 告期末,以外幣計值之貨幣項目以報告 期末當日通用之匯率重新換算。當非貨 幣項目之公平值收益或虧損於損益中確 認,該收益或虧損之任何匯兑部分亦會 於損益中確認。以外幣計值並分亦會 放益中確認。以外幣計值並按公平 值列賬之非貨幣項目以釐定公平值當日 通用之匯率重新換算。以外幣計值並以 歷史成本計量之非貨幣項目不會重新換 算。

## (n) Foreign currencies (Cont'd)

Exchange differences arising from the settlement of monetary items, and on the translation of monetary items, are recognised in profit or loss in the period in which they arise, except for exchange differences arising from a monetary item that forms part of the Company's net investment in a foreign operation, in which case, the exchange differences are recognised in other comprehensive income and will be reclassified from equity to profit or loss on disposal of the foreign operation.

For the purposes of presenting the consolidated financial statements, the assets and liabilities of the Group's foreign operations are translated into the presentation currency of the Group (i.e. HK\$) using the exchange rate prevailing at the end of each reporting period. Income and expense items are translated at the average exchange rates for the period, unless exchange rates fluctuate significantly during that period, in which case, the exchange rates at the dates of transactions are used. Exchange differences arising, if any, are recognised in other comprehensive income and accumulated in the translation reserve. Such exchange differences are recognised in profit or loss in the period in which the foreign operation is disposed of.

On the disposal of a foreign operation (i.e. a disposal of the Group's entire interest in a foreign operation, or a disposal involving loss of control over a subsidiary that includes a foreign operation, or a disposal involving loss of significant influence over an associate that includes a foreign operation), all of the exchange differences accumulated in the translation reserve in respect of that operation attributable to the owners of the Company are reclassified to profit or loss.

## (n) 外幣(續)

結算貨幣項目及換算貨幣項目時產生之 匯兑差額於產生之期間在損益中確認, 惟貨幣項目構成本公司之境外業務淨投 資一部分而產生之匯兑差額則於其他全 面收益中確認,並在出售境外業務時, 從股本權益重新分類至損益。

為呈列綜合財務報表,本集團境外業務 之資產及負債均以各報告期末之通用匯 率換算為本集團之呈列貨幣(即港元)。 收入及開支項目則以期間平均匯率予以 換算。惟倘匯率於期間內波動很大,在 此情況下則以交易日之匯率換算。所產 生之匯兑差額(如有)於其他全面收益中 確認並累積於匯兑儲備中。該等匯兑差 額於該境外業務出售期間於損益中確 認。

於出售境外業務(即出售本集團於境外業 務之全部權益,或出售涉及失去對擁有 境外業務之附屬公司之控制權,或出售 涉及失去對擁有境外業務之聯營公司之 重大影響力)時,就本公司擁有人應佔該 業務於匯兑儲備累積之所有匯兑差額重 新分類至損益。

#### 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

#### Foreign currencies (Cont'd) **(n)**

In relation to a partial disposal of a subsidiary that does not result in the Group losing control over the subsidiary, the proportionate share of accumulated exchange differences is reattributed to non-controlling interests and is not recognised in profit or loss. For partial disposals of associates that do not result in the Group losing significant influence, the proportionate share of the accumulated exchange differences is reclassified to profit or loss. Settlements of monetary items which formed part of net investment in foreign operations without changes in the Group's ownership interests is not considered as partial disposals.

#### **(0) Borrowing costs**

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets. Capitalisation of such borrowing costs ceases when the assets are substantially ready for their intended use or sale.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

倘出售部分附屬公司並未導致本集團失 去對附屬公司之控制權,則按比例將 累積匯兑差額重新歸類為非控股權益, 而並不會於損益中確認。就出售部分聯 營公司而並未造成本集團失去重大影響 力,則按比例將攤佔累積匯兑差額重新 分類至損益。在不改變本集團擁有權益 的情況下,構成境外業務淨投資一部分 的貨幣項目的結算不視為出售部分。

#### 借貸成本 **(0)**

於購買、興建或製造必須以長時間預備 擬定用途或銷售之合資格資產之直接應 佔借貸成本將計入為該等資產之成本。 當該等資產實質上達至擬定用途或可供 銷售時,借貸成本便不再作資本化。

所有其他借貸成本於產生期間於損益中 確認。

## (p) Retirement benefit costs

Payments to defined contribution retirement benefit schemes are recognised as expenses when employees have rendered service entitling them to the contributions.

#### (q) **Provisions**

Provisions are recognised when the Group has a present obligation as a result of a past event, it is probable that the Group will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. Where a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows.

## (r) Related parties (Cont'd)

A related party transaction is a transfer of resources, services or obligations between the Group and a related party, regardless of whether a price is charged.

Close members of the family of a person are those family members who may be expected to influence, or be influenced by, that person in their dealings with the entity.

#### (s) Contingent liabilities

A contingent liability is a possible obligation that arises from past events and whose existence will only be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group. It can also be a present obligation arising from past events that is not recognised because it is not probable that outflow of economic resources will be required or the amount of obligation cannot be measured reliably. A contingent liability is not recognised but is disclosed in the notes to the consolidated financial statements. When a change in the probability of an outflow occurs so that outflow is probable, it will then be recognised as a provision.

#### (t) Operating segments

Operating segments are reported in a manner consistent with the internal management reporting provided to the chief operating decision-makers. Segment assets consist primarily of investment properties, financial assets and other assets. Segment liabilities comprise financial liabilities and other liabilities. The Group evaluates performance on the basis of profit or loss from operations after tax expense and non-controlling interests but not including the major noncash items. The major non-cash items are unrealised fair value changes on investment properties and other properties together with, if applicable, their respective deferred tax.

#### 3. 主要會計政策概要(續) SUMMARY OF SIGNIFICANT ACCOUNTING 3. POLICIES (Cont'd)

#### (u) **Dividend distribution**

Dividend distribution to the Company's shareholders is recognised as a liability in the consolidated statement of financial position in the period in which the dividends are approved by the Company's shareholders or directors, where appropriate.

#### **Government grants** (v)

Government grants are not recognised until there is reasonable assurance that the Group will comply with the conditions attaching to them and that the grants will be received.

Government grants are recognised in profit or loss on a systematic basis over the periods in which the Group recognises as expenses the related costs for which the grants are intended to compensate.

Government grants related to income that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Group with no future related costs are recognised in profit or loss in the period in which they become receivable. Such grants are presented under other income.

#### Non-current assets held for sale (w)

Non-current assets are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use. This condition is regarded as met only when the asset is available for immediate sale in its present condition subject only to terms that are usual and customary for sales of such asset and its sale is highly probable. Management must be committed to the sale, which should be expected to qualify for recognition as a completed sale within one year from the date of classification.

Non-current assets classified as held for sale are measured at the lower of their previous carrying amount and fair value less costs to sell, except for financial assets within the scope of HKFRS 9 which continue to be measured in accordance with the accounting policies as set out in respective sections.

#### (w) 持作出售之非流動資產

非流動資產之賬面值倘若乃透過出售交 易而非透過持續使用而收回,則會分類 為持作出售類別。被視為符合此條件僅 限於該資產可於現況下供即時出售時就 僅在出售此類資產受通常和慣常條款約 束並且較高可能達成該出售。管理層必 須承諾該出售將於分類之日起一年內完 成方可預期符合確認。

分類為持作出售之非流動資產乃按資產 先前之賬面值及公平值減出售成本(以較 低者為準)計量(惟香港財務報告準則第9 號範圍內繼續根據相關章節所載的會計 政策進行計量的金融資產除外)。

# 4. CRITICAL ACCOUNTING ESTIMATES

In the application of the Group's accounting policies, which are described in Note 3, the management of the Group is required to make judgments, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and underlying assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

#### Key sources of estimation uncertainty

The followings are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

#### Fair value measurement of financial assets

As at 31 December 2022, the Group held unlisted bond, suspended trading listed equity securities, unlisted equity securities (including limited partnership) and structured product with carrying amounts of approximately HK\$1,396,000, HK\$115,438,000, HK\$525,780,000 and HK\$4,005,000 (2021: HK\$28,037,000, nil, HK\$1,527,466,000 and HK\$6,840,000) respectively. These financial instruments do not have a quoted market price in an active market ("Unquoted Investments").

Fair values of the Unquoted Investments were determined based on significant unobservable inputs using valuation techniques. Judgment and estimation are required in establishing the relevant valuation techniques and the relevant inputs thereof. Changes in assumptions relating to these factors could result in material adjustments to the fair value of the Unquoted Investments. Details are set out in Note 5(c).

# 4. 關鍵會計估計

於應用本集團之會計政策(如附註3所述)時, 本集團之管理層須對未能從其他方面確定之資 產及負債之賬面值作出判斷、估計及假設。該 等估計及相關假設乃根據過往之經驗及其他被 視為相關之因素而作出。實際結果可能與此等 估計不盡相同。

就該等估計及相關假設須不斷作出檢討。倘會 計估計之修訂僅影響該修訂期間,該修訂會於 該修訂期間內確認;或倘該修訂影響本期間及 未來期間,則於修訂期間及未來期間確認。

#### 估計不明確因素之主要來源

以下是對未來,以及於報告期末估計不明確因 素之其他主要來源使下一個財政年度對資產及 負債之賬面值造成重大調整有顯著風險之主要 假設。

## 金融資產之公平值計量

於二零二二年十二月三十一日,本集團持有 非上市債券、暫停買賣上市股本證券、非 上市股本證券(包括有限合夥企業)及結構性 產品,彼等之賬面值分別約為1,396,000港 元、115,438,000港元、525,780,000港元及 4,005,000港元(二零二一年:28,037,000港 元、無、1,527,466,000港元及6,840,000港 元)。該等金融工具於活躍市場上並無市場報 價(「無報價投資」)。

無報價投資之公平值按重大非可觀察數據之估 值技術而釐定,建立相關估值技術及其相關數 據時需要進行判斷和估計。與該等因素相關的 假設變動可能導致對無報價投資的公平值進行 重大調整。詳情載於附註5(c)。

# 4. CRITICAL ACCOUNTING ESTIMATES (Cont'd)

#### Key sources of estimation uncertainty (Cont'd)

#### Fair value of investment properties

The Group's investment properties are stated at fair value based on the valuations performed by independent qualified professional property valuers. In determining the fair value, the valuers have based on methods of valuation which involve certain assumptions and estimates. Independent external valuations were obtained in respect of all of the portfolio of the Group, and also of the investment properties held by its associates in order to support management's estimates. In relying on the valuation reports, the management of the Group has exercised its judgments and is satisfied that the methods of valuation are reflective of the current market conditions, as detailed in Note 19. Changes to these assumptions, including the potential risk of any market violation, policy, geopolitical and social changes or other unexpected incidents would result in changes in the fair values of the Group's investment properties and the investment properties held by its associates which were included in the investments accounted for using the equity method as reported in the consolidated statement of financial position. Corresponding adjustments would be made, where appropriate, to the amount of fair value gain or loss and share of results of investments accounted for using the equity method reported in the consolidated statement of comprehensive income.

As at 31 December 2022, the carrying amount of the Group's investment properties was approximately HK\$13,369,124,000 (2021: HK\$13,292,161,000).

The following table details the Group's sensitivity to a 5% increase and decrease in HK\$ against the relevant foreign currencies. As HK\$ is pegged to US\$, it is assumed that there would be no material currency risk exposure between US\$ and HK\$ and therefore US\$ is excluded from the sensitivity analysis below.

5% is the sensitivity rate used when reporting foreign currency risk internally to key management personnel and represents management's assessment of the reasonably possible change in foreign exchange rates.

# 5. FINANCIAL INSTRUMENTS (Cont'd)

(b) Financial risk management objectives and policies (Cont'd)

#### Market risk (Cont'd)

(ii) Cash flow interest rate risk

The Group has variable-rate interest-bearing assets and liabilities including time deposits, bank balances, sales proceeds held by a third party and borrowings and is therefore exposed to cash flow interest rate risk. Details of these financial instruments are disclosed in respective notes. The Group currently does not have interest rate hedging policy. However, the management of the Group monitors interest rate exposure and will consider hedging significant interest rate exposure should the need arise.

The Group's cash flow interest rate risk from its variable rate borrowings is mainly concentrated on the fluctuation of Hong Kong Interbank Offered Rate ("HIBOR"), compounded reference rate of banks or costs of funds of a financial institution or a bank.

#### Sensitivity analysis

The following demonstrates the sensitivity to a reasonable possible change in interest rates with all other variables held constant, of the Group's profit (2021: loss) before tax (through the impact of floating rates in time deposits, bank balances, sales proceeds held by a third party and borrowings).

If the floating rates had been 50 basis points higher/ lower, with all other variables held constant, the Group's profit (2021: loss) before tax for the year ended 31 December 2022 would decrease/increase (2021: increase/decrease) by approximately HK\$14,048,000 (2021: HK\$20,997,000). This was mainly attributable to the Group's exposure to interest rates on its variablerate borrowings. 5. 金融工具(續)

#### 市場風險(續)

(ii) 現金流量利率風險

本集團擁有以浮息計息之資產及 負債(包括定期存款、銀行結餘、 第三方所持銷售所得款項及借 貸),故本集團須承擔現金流量利 率風險。該等金融工具詳情於相 關附註中予以披露。本集團現時 並無利率對沖政策。然而,本集 團之管理層監控利率風險,並於 必要時考慮對沖重大利率風險。

本集團浮息借貸帶來之現金流量 利率風險主要集中於香港銀行同 業拆息(「香港銀行同業拆息」)、 銀行之複合參考利率或一間金融 機構或一間銀行之資金成本之波 動。

#### 敏感度分析

以下列示在全部其他變數維持不 變之情況下,本集團除税前溢利 (二零二一年:虧損)對利率出現合 理可能變動時之敏感度(透過定期 存款、銀行結餘、第三方所持銷 售所得款項及借貸之浮動利率影 響)。

倘浮動利率上升/下降50個基 點,在全部其他變數維持不變之 情況下,則本集團截至二零二二 年十二月三十一日止年度之除税 前溢利(二零二一年:虧損)將減 少/增加(二零二一年:增加/減 少)約14,048,000港元(二零二一 年:20,997,000港元)。此乃主要 由於本集團所承受之浮息借貸之 利率風險。

(b) Financial risk management objectives and policies (Cont'd)

#### Market risk (Cont'd)

(ii) Cash flow interest rate risk (Cont'd)

#### Sensitivity analysis (Cont'd)

There would be no material impact on the Group's other components of equity for the years ended 31 December 2022 and 2021.

The Group's sensitivity to interest rates has decreased during the current year mainly due to the decrease in net debt carries at variable-rate.

(iii) Price risk

The Group's investments classified as financial assets measured at FVTPL and financial assets measured at FVTOCI which are measured at fair value at the end of each reporting period and expose the Group to price risk. At the end of the reporting period, the Group held investments in certain high yield and fixed-rate bonds. High yield bonds are bonds that are typically rated below investment grade or are unrated and therefore are generally more vulnerable to economic cycles as they typically fall more in value than investment grade bonds given higher default risk and higher investors risk adversity. For bonds with fixed-rate coupons, they are more susceptible to fluctuations in interest rates. As interest rates move upward, the value of the bonds will generally fall. Furthermore, the longer the tenor of the bonds, the more sensitive they will be to interest rate changes.

The management of the Group manages this exposure by maintaining a portfolio of investments with different risk profiles. In addition, the Group has appointed a specific team to monitor the price risk and will consider hedging the risk exposure should the need arise. 5. 金融工具(續)

(ii) 現金流量利率風險(續)

敏感度分析(續)

對本集團截至二零二二年及二零 二一年十二月三十一日止年度 之股本權益其他部分並無重大影 響。

本集團於本年度對利率之敏感度 減少主要由於以浮息計算之債務 淨額減少所致。

(iii) 價格風險

本集團之投資分類為通過損益以 反映公平值計量之金融資產及通 過其他全面收益以反映公平值計 量之金融資產於各報告期末按公 平值計量,故本集團須承擔價格 風險。於報告期末,本集團持有 若干高息及定息債券之投資。高 息債券一般為評級低於投資級別 甚至不獲評級之債券,由於其違 約風險及投資避險傾向較高, 價值跌幅一般較投資級別債券為 大,因此普遍較易受經濟週期影 響。而定息債券則較易受利率波 動影響。若利率上升,有關債 券價值普遍下跌。此外,債券年 期愈長,對利率變化之敏感度愈 高。

本集團之管理層以設立不同風險 水平之投資組合管理有關風險。 此外,本集團已委任特定小組監 控價格風險,並於必要時考慮對 沖風險。

#### Sensitivity analysis

The sensitivity analysis below has been determined based on the exposure to price risk at the end of the reporting period.

If prices had been 5% higher/lower, the Group's profit (2021: loss) before tax for the year ended 31 December 2022 would increase/decrease (2021: decrease/increase) by approximately HK\$32,496,000 (2021: HK\$37,836,000). This was due to the changes in fair value of financial assets measured at FVTPL.

If prices had been 5% higher/lower, the Group's other components of equity for the year ended 31 December 2022 would increase/decrease by approximately HK\$31,777,000 (2021: HK\$94,602,000) as a result of the changes in fair value of financial assets measured at FVTOCI.

#### **Credit risk**

The Group's maximum exposure to credit risk in the event of the counterparties' failure to perform their obligations as at 31 December 2022 in relation to each class of recognised financial assets is the carrying amounts of those assets as stated in the consolidated statement of financial position. The Group's time deposits and bank balances are deposited with banks of high credit quality in Hong Kong, Mainland China and overseas. 5. 金融工具(續)

# (b) Financial risk management objectives and policies (Cont'd)

#### Credit risk (Cont'd)

The Group made transactions with counterparties with acceptable credit quality in conformance to the Group's treasury policies to minimise credit exposure. Acceptable credit ratings from reputable credit rating agencies and scrutiny of financials for non-rated counterparties are two important criteria in the selection of counterparties. The credit quality of counterparties will be closely monitored over the life of the transaction. The Group reviews its financial counterparties periodically in order to reduce credit risk concentrations relative to the underlying size and credit strength of each counterparty.

In an attempt to forestall adverse market movement, the Group also monitors potential exposures to each financial institution counterparty. In addition, the Group reviews the recoverable amount of each individual debt at the end of the reporting period to ensure that adequate allowance for credit losses are made for irrecoverable amounts. In this regard, the Directors consider that the Group's credit risk is significantly reduced.

The Group applies the simplified approach to provide for ECLs prescribed by HKFRS 9, which permits the use of the lifetime ECL provision for trade receivables. To measure the ECLs, trade receivables have been grouped based on shared credit risk characteristics. The Group has performed historical analysis and identified the key economic variables impacting credit risk and ECL, and also considers the available reasonable and supportive forward-looking information. 5. 金融工具(續)

本集團與符合本集團庫務政策所訂信貸 評級良好之交易方進行交易,以盡量降 低信貸風險。揀選交易方之兩項重要原 則,乃由有信譽之信貸評級機構發出可 接受的信貸評級,以及對不獲評級之交 易方進行財務評審。本集團會在整個交 易期內密切監察交易方之信貸質素。本 集團會定期對與其交易之財務交易方進 行評審,以減低與各交易方相關規模及 信貸強度有關之集中信貸風險。

為不利之市場變動預先作準備,本集團 亦監察各金融機構交易方之潛在風險。 此外,於報告期末,本集團檢討每宗個 別債項之可收回金額,確保就無法收回 金額作出足夠之信貸虧損撥備。就此而 言,董事認為本集團之信貸風險已大幅 降低。

本集團應用香港財務報告準則第9號所 訂明之簡化方法就預期信貸虧損作出撥 備,該方法允許對應收貿易賬項採用整 個存續期內之預期信貸虧損撥備。就計 量預期信貸虧損,已將應收貿易賬項按 其共有之信貸風險特徵作歸類。本集團 已進行歷史分析及識別對信貸風險及預 期信貸虧損有影響之主要經濟變數,並 考慮現有之合理及具理據之前瞻性資 料。

## (b) Financial risk management objectives and policies (Cont'd)

#### Credit risk (Cont'd)

As at 31 December 2022, trade receivables that are individually significant have been separately assessed for impairment, after taking into consideration, the background and reputation of the customers, historical settlement records and past experiences at the end of each reporting period. The Group makes periodic assessments on the recoverability of the trade receivables by using a provision matrix to measure ECL. The provision rates are based on days past due for groupings of various customer segments with similar financial strength and any disputes with the debtors. The calculation reflects reasonable and supportable information that is available at the reporting date about past events, current conditions and forecasts of future economic conditions. For the year ended 31 December 2022, an allowance for credit losses in respect of trade receivables of approximately HK\$1,000 (2021: HK\$13,000) was recognised in the consolidated statement of comprehensive income. Details are set out in Note 30.

For interest receivables from bonds and structured product, the Group makes periodic individual assessment on the recoverability of each bond and structured product based on their respective historical settlement records and credit rating of the respective issuer. As at 31 December 2022 and 2021, certain bond issuers had defaulted their payment and/or were in severe financial difficulty and the Group considered the amounts were irrecoverable. The Group assessed and measured these amounts based on lifetime ECL and provision of approximately HK\$11,156,000 (2021: HK\$11,885,000) were made in respect of these receivables for the year ended 31 December 2022. The remaining interest receivables from bonds and structured product of approximately HK\$2,791,000 (2021: HK\$5,520,000) were assessed based on 12m ECL and no provision were made for the year ended 31 December 2022 (2021: nil).

For all other receivables, the Group measures the loss allowance equal to 12m ECL and assessed individually, unless when there has been a significant increase in credit risk since initial recognition, the Group recognises lifetime ECL. The assessment of whether lifetime ECL should be recognised is based on significant increases in the likelihood or risk of a default occurring since initial recognition.

The credit quality of the advances to related parties has been assessed with reference to historical information about the default rates and financial position of the counterparties. These balances were assessed individually based on 12m ECL. For the year ended 31 December 2022, allowance for credit losses of approximately HK\$7,421,000 (2021: HK\$47,000) was recognised in the consolidated statement of comprehensive income.

Investments in bonds are limited to financial institutions or investment counterparties with high quality. When making decisions on investments in bonds, the management of the Group has also made reference to the credit ratings of the issuers and guarantors (if any) which, however, are not an assurance as to the issuers' and/or guarantors' creditworthiness or the risks, returns or suitability of the bonds. Risks in particular specific to certain types of bonds held by the Group are: (i) high yield bonds - they in general carry high credit risk as they are often subject to higher risk of issuer default as they are typically rated below investment grade or are unrated; (ii) perpetual bonds - their coupon payments may be deferred or suspended subject to the terms and conditions of the bonds and they are often callable after a call protection period (related risk is detailed in the liquidity risk below); and (iii) contingent convertible bonds - issued by financial institutions that are deeply subordinated in the capital structure, typically Tier 1 or Tier 2 securities. The key characteristic of contingent convertible bonds is that the issuer can either write off the principal amount or convert it to shares without causing a default on the bond. There could be a specific hard capital ratio trigger or declaration of nonviability event by the regulator for the write off or conversion to equity to happen. The Group may be exposed to a higher issuer credit risk and may experience substantial losses or lose the entire value of investment as a result of a trigger event. Other than the above, there may be additional risks associated with trading of bonds over-the-counter ("OTC") because OTC transactions are generally subject to limited regulation and therefore less transparent in transaction details such as volume, price formation, etc. There may also be additional risks for investments located in an emerging market which may involve certain risks associated with political and economic uncertainty. In view of the specific risks above, the Group has appointed the specific team as disclosed in Note 5(b)(iii) above to closely monitor the risks.

## (b) Financial risk management objectives and policies (Cont'd)

#### Credit risk (Cont'd)

The credit risk for pledged deposits, time deposits, bank balances and deposits with clearing house are insignificant because the counterparties are banks and clearing house with high credit ratings.

The Group's concentration of credit risk by geographical location is mainly in Hong Kong, Europe and Mainland China. The Group also monitors regularly to avoid over-concentration (such as investment products and underlying foreign exchange, etc.) of the investment portfolio.

#### Liquidity risk

Certain bonds held by the Group carried fixed-rate coupon are accompanied with call rights, the issuers may call and redeem the bonds early if interest rates fall. The Group may face reinvestment risk when issuers exercised its right to redeem the bond before it matures. Besides, some bonds may not have an active secondary market. In case of the market in which the bonds are traded is illiquid, the Group may run the risk of either having to retain the investment until the end of the term or selling it before maturity at an unfavourable price.

The Group manages liquidity risk by maintaining adequate bank deposits and cash, monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and financial liabilities.

The liquidity risk is under continuous monitoring by the management of the Group. Reports with maturity dates of bank borrowings and thus the liquidity requirement are provided to the management of the Group for review periodically. The management of the Group will contact the bankers for renewals of bank borrowings whenever necessary.

The following tables detail the Group's remaining contractual maturity for its non-derivative financial liabilities based on the agreed repayment terms. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay. The tables include both interest and principal cash flows.

#### Liquidity risk (Cont'd)

In addition to the items as set out in the above liquidity risk tables, the maximum amount the Group could be required to settle under (i) financial guarantee provided by the Group in respect of a banking facility utilised by an investee company and (ii) indemnity given to a third party in relation to an investee company is approximately HK\$613,830,000 (2021: HK\$613,830,000) in aggregate, if such amount is claimed by the counterparties to the guarantee or indemnity at any time within the guaranteed or indemnity period. Details of the guarantee and indemnity are set out in Note 43.

Secured bank borrowings with repayment on demand clause are included in the "On demand or within 1 year" time band of maturity analysis in the above liquidity risk tables. At the end of the reporting period, the total undiscounted cash flow of the borrowings amounted to approximately HK\$1,757,192,000 (2021: HK\$1,476,255,000). Taking into account the Group's financial position, the Directors do not believe that it is probable that the banks and financial institution will exercise their discretionary rights to demand immediate repayment. The Directors believe that such borrowings will be repaid in accordance with the scheduled repayment dates as set out in the loan agreements, details of which are set out in the tables below (include both interest and principal cash flows).

#### Interest rate benchmark reform

As listed in Note 35, several of the Group's HIBOR (2021: London Interbank Offered Rate ("LIBOR") and HIBOR) bank borrowings have been subject to the interest rate benchmark reform.

### LIBOR

As at 31 December 2022, all LIBOR settings have been either ceased to be provided by any administrator or no longer be representative, except for US\$ settings (other than the 1-week and 2-month settings) which will be ceased immediately after 30 June 2023.

#### HIBOR

While the Hong Kong Dollar Overnight Index Average ("HONIA") has been identified as an alternative to HIBOR, there is no plan to discontinue HIBOR. The multi-rate approach has been adopted in Hong Kong, whereby HIBOR and HONIA will co-exist.

# Progress towards implementation of alternative benchmark interest rates

As part of the Group's risk management for transition, new contracts entered into by the Group are linked to the relevant alternative benchmark rates or interest rates which are not subject to reform to the extent feasible. Otherwise, the Group ensured the relevant contracts include detailed fallback clauses clearly referencing the alternative benchmark rate and the specific triggering event on which the clause is activated.

#### 利率基準改革

誠如附註35所列,本集團的多項香港銀 行同業拆息(二零二一年:倫敦銀行同業 拆息(「倫敦銀行同業拆息」)及香港銀行 同業拆息)銀行借貸可能需要進行利率基 準改革。

#### 倫敦銀行同業拆息

於二零二二年十二月三十一日,所有倫 敦銀行同業拆息設置將不再由任何管理 員提供或不再具有代表性,惟對於美元 設置(除一週和兩個月之設置外)將於二 零二三年六月三十日後終止。

#### 香港銀行同業拆息

儘管港元隔夜平均指數(「港元隔夜平均 指數」)已被指定為香港銀行同業拆息的 替代方案,但並無終止香港銀行同業拆 息的計劃。香港採納多利率方式,香港 銀行同業拆息和港元隔夜平均指數將並 存。

#### 替代基準利率的實施進展

作為本集團過渡風險管理的一部分,本 集團訂立的新合約與相關替代基準利率 或在可行範圍內不受改革的利率掛鈎。 否則,本集團確保相關合約包括詳細的 備用條款,明確參考替代基準利率和引 用該條款的具體觸發事件。

(b) Financial risk management objectives and policies (Cont'd)

#### Interest rate benchmark reform (Cont'd)

Progress towards implementation of alternative benchmark interest rates (Cont'd)

During the year ended 31 December 2022, a contract has been transitioned to cost of funds of a financial institution. In addition, for certain floating rate borrowings that are linked to HIBOR, the Group had confirmed with the relevant counterparties that HIBOR will continue to maturity. The Group accounted for the changes using the practical expedient in HKFRS 9 which allows the Group to change the basis for determining the contractual cash flows prospectively by revising the effective interest rate.

The Group is closely monitoring the market and managing the transition to new benchmark interest rates, including announcements made by the relevant interbank offered rate regulators, risks arising from the interest rate benchmark reform and the progress in completing the transition to alternative benchmark. 5. 金融工具(續)

替代基準利率的實施進展(續)

於截至二零二二年十二月三十一日止年 度內,一項合約已轉換成一間金融機構 之資金成本。此外,對於與香港銀行同 業拆息掛鈎的若干浮動利率借貸,本集 團已與相關交易方確認將按香港銀行同 業拆息繼續至到期。本集團就該等變動 應用香港財務報告準則第9號內之實際 權宜方法入賬,允許本集團透過修訂實 際利率來改變合約現金流量之釐定基 準。

本集團正在密切關注市場並管理轉換至 新基準利率,包括相關銀行同業拆息 監管機構發布的公告、利率基準改革帶 來的風險以及就完成替代基準轉換的進 展。

## 6. CAPITAL RISK MANAGEMENT

The Group's primary objectives when managing capital are to safeguard the abilities of the entities in the Group to continue as a going concern, so that it can continue to provide returns for shareholders of the Company and benefits for other stakeholders, by pricing products and services commensurately with the level of risk and by securing access to finance at a reasonable cost.

The Directors actively and regularly review and manage the Group's capital structure to maximise the returns to shareholders of the Company through the optimisation of the debt afforded by a sound capital position, and make adjustments to the capital structure in light of changes in economic conditions. The Group's overall strategy remains unchanged from 2021.

As at 31 December 2022, the capital structure of the Group mainly consists of debts, which include borrowings from banks and a financial institution, lease liabilities, pledged deposits, time deposits, bank balances and cash, and total equity, comprising issued share capital, reserves, retained profits and non-controlling interests. The Directors consider the cost of capital and the risks associated with each class of capital to monitor its capital structure on the basis of a gearing ratio. The Group has a target gearing ratio not higher than 50%, determined as the proportion of net debt to equity. This ratio is expressed by as a percentage of net debt over the total equity. Net debt is calculated as total borrowings and lease liabilities (as shown in the consolidated statement of financial position) less cash and bank balances and pledged deposits.

There was no change in valuation techniques used for the fair value measurement of the Group's investment properties, as compared with those in last year.

During the year ended 31 December 2021, there was a change in valuation technique for a property situated in the United Kingdom and a property situated in Hong Kong. Due to the Group's plan for redevelopment of the property in the United Kingdom, the carrying amount of the property was transferred from the completed properties class of investment properties to properties under construction class of investment properties. Consequently, the valuation technique for the fair value measurement of the property had been changed from a combination of direct comparison method and investment method to residual method. The change in valuation techniques for a property in Hong Kong was due to the then economic conditions and pandemic outbreak, whereby the relevant markets became less active and the market evidence became less available and reliable. Consequently, the valuation technique for the fair value measurement of the property had been changed from direct comparison method to combination of direct comparison method and investment method.

All of the Group's property interests held under operating leases to earn rentals or for capital appreciation purposes are measured using the fair value model and are classified and accounted for as investment properties.

As at 31 December 2022, valuations of investment properties of the Group in Hong Kong and Mainland China were carried out by B.I. Appraisals Limited ("B.I. Appraisals") and the investment properties in the United Kingdom were carried out by LCH (Asia-Pacific) Surveyors Limited ("LCH (Asia-Pacific)"), both are independent qualified professional property valuers (2021: valuations of investment properties in Hong Kong and Mainland China and one of the investment properties in the United Kingdom were carried out by LCH (Asia-Pacific) whereas the remaining investment properties in the United Kingdom were carried out by LCH (Asia-Pacific) whereas the remaining investment properties in the United Kingdom Appraisals Limited ("Peak Vision Appraisals"), both are independent qualified professional property valuers). The valuers have recent relevant experience in the valuations of similar properties in the relevant locations.

# 19. 投資物業(續)

本集團投資物業之公平值計量所採用之估值技 術與去年所採用的並無轉變。

於截至二零二一年十二月三十一日止年度內, 一項位於英國之物業及一項位於香港之物業之 估值技術有所轉變。由於本集團計劃為該英國 物業進行物業重建,因此已將該物業之賬面值 由投資物業之落成物業分類轉撥至投資物業之 興建中物業分類。故此,該物業按公平值計量 之估值技術已由直接比較法及投資法之合併轉 變至剩餘價值法。至於一項位於香港之物業之 估值技術轉變乃由於當時之經濟狀況及疫情爆 發以致相關市場變得較不活躍以及市場證據變 得越少及較不可靠。故此,該物業按公平值計 量之估值技術已由直接比較法轉變至直接比較 法及投資法之合併。

本集團所有持有營業租約以賺取租金或資本增 值之物業權益乃採用公平值模式計量,並分類 及列作投資物業入賬。

於二零二二年十二月三十一日,本集團位於香 港及中國大陸之投資物業由保柏國際評估有限 公司(「保柏國際評估」)進行估值,而位於英國 之投資物業由利駿行測量師有限公司(「利駿行 測量師」)進行估值,兩者均為獨立合資格專業 物業估值師(二零二一年:位於香港及中國大 陸之投資物業以及其中一項位於英國之投資物 業由利駿行測量師進行估值,而餘下位於英國 之投資物業由澋鋒評估有限公司(「澋鋒評估」) 進行估值,兩者均為獨立合資格專業物業估值 師)。估值師近期亦有評估相關地點類似物業 之經驗。

At the end of the reporting period, the management of the Group discussed with the independent qualified professional property valuers about the appropriate valuation techniques and key inputs for Level 3 fair value measurements.

The valuation reports for the investment properties as at 31 December 2022 were signed by the respective directors of B.I. Appraisals and LCH (Asia-Pacific) (2021: signed by the respective directors of LCH (Asia-Pacific) and Peak Vision Appraisals), who are members of The Hong Kong Institute of Surveyors and/or The Royal Institution of Chartered Surveyors. The valuations were performed in accordance with "The HKIS Valuation Standards 2020" published by The Hong Kong Institute of Surveyors and/or "International Valuation Standards" published by the International Valuation Standards Council (2021: "The HKIS Valuation Standards 2020" published by The Hong Kong Institute of Surveyors and/or "The RICS Valuation – Global Standards issued November 2021" published by The Royal Institution of Chartered Surveyors and/or "International Valuation Standards" published by the International Valuation Standards issued November 2021" published by The Royal Institution of Chartered Surveyors and/or "International Valuation Standards" published by the International Valuation Standards Council).

The fair value of each investment property is individually determined at the end of each reporting period based on its market value and by adopting investment method, direct comparison method and/or residual method, as appropriate. The investment method relying on the capitalisation of rental income is based upon estimates of future results and a set of assumptions specific to each property to reflect its tenancy status. The fair value of each investment property reflects, among other things, rental income from current term leases, term yield rate, assumptions about rental income from future reversion leases in light of current market conditions and reversionary yield rate. Judgment by the valuers is required to determine the principal valuation factors, including term yield rate and reversionary yield rate. Such yield rates were adopted after considering the investment sentiments and market expectations of properties of similar nature. Direct comparison method assumes each of these properties is capable of being sold in its existing state with the benefit of vacant possession and by making reference to comparable sales evidence as available in the relevant markets. Combination of direct comparison method and investment method takes the valuation results of the direct comparison method and investment method when arriving at the fair value of the properties. For investment properties under construction at fair value, their fair values are determined by residual method by deducting the estimated total outstanding redevelopment costs and an allowance for developer's risk and profit from the gross development value of the proposed redevelopment.

## 19. 投資物業(續)

於報告期末,本集團之管理層與獨立合資格專 業物業估值師討論有關合適之估值技術及第三 級公平值計量之主要數據。

於二零二二年十二月三十一日,投資物業之估 值報告由保柏國際評估及利駿行測量師(二零 二一年:利駿行測量師及澋鋒評估)各自之董 事簽署,彼等為香港測量師學會會員及/或皇 家特許測量師學會會員。該等估值乃遵守香港 測量師學會所頒布之「香港測量師學會評估準 則二零二零年」及/或國際評估準則理事會所 頒布之「國際評估準則」(二零二一年:香港測 量師學會所頒布之「香港測量師學會評估準則 二零二零年」及/或皇家特許測量師學會所頒 布之「皇家特許測量師學會估值 - 全球準則於 二零二一年十一月頒帝」及/或國際評估準則 理事會所頒布之「國際評估準則」)進行。

每項投資物業之公平值於各報告期末根據其市 值,並採納投資法、直接比較法及/或剩餘價 值法(按適用情況而定)而個別釐定。投資法乃 依據資本化租金收入,並以對各項物業未來業 績之估計及一系列特定假設為依據,以反映其 租賃狀況。每項投資物業之公平值反映(其中 包括)現有租約期限之租金收入、租約期限之 回報率、基於現時市況對未來復歸租約所得租 金收入之假設及復歸回報率。於釐定主要估值 因素(包括租約期限之回報率及復歸回報率)時 須由估值師作出判斷。於採納有關回報率時已 考慮投資氣氛及市場對類似性質物業之預期。 直接比較法假設該等物業各自可以現況交吉出 售及參照相關市場上可供比較之銷售證據。就 按直接比較法及投資法之合併得出物業之公平 值,乃直接比較法及投資法之估值結果。就按 公平值之興建中投資物業而言,其公平值乃以 剩餘價值法透過從擬定重建項目之開發總值扣 除估計未付之重建成本總額以及發展商之風險 及利潤之容許差額而釐定。

Reversionary yield is the rate taking into account the capitalisation of potential rental income, nature of the property and prevailing market conditions. Market rent per square foot is the market rent and selling price per square foot/square metre is the market selling price taking into account the direct comparable market transactions to the related properties. Budgeted construction costs to be incurred are the construction costs to be expended to complete the properties. Discount rate applied reflects the current market assessments of the time value of money and the risks specific to the property. Long-term growth rate is based on the relevant industry growth forecasts.

The fair value measurements are negatively correlated to the reversionary yield, the budgeted construction costs to be incurred and the discount rate, while positively correlated to the market rent per square foot, the selling price per square foot/square metre and the long-term growth rate.

# 19. 投資物業(續)

復歸回報率乃計及潛在租金收入資本化、物業 性質及當時市況得出之比率。每平方呎之市場 租金乃計及相關物業之市場可供直接比較交易 得出之市場租金,而每平方呎/平方米之售價 乃計及相關物業之市場可供直接比較交易得出 之市場售價。將產生之預算建築成本乃為完成 物業將會支銷之建築成本。所應用之貼現率反 映現時市場對時間價值及物業之特定風險的評 估。長期增長率乃基於相關行業之增長預測。

公平值計量與復歸回報率、將產生之預算建築 成本及貼現率成反比,而與每平方呎之市場租 金、每平方呎/平方米之售價及長期增長率則 成正比。
